

AI Generated Versions of the Protectors of Alterra.

From *Shaman's Song* by Rev. Esnur

The Flag of Alterra

Shaman's Song as a novel grew out of a spiritual project I began in the 1970s after reading Israel Regardie's *Middle Pillar*; it is part of the back story for my personal Spirit Temple. The development -- the "building" -- of the Spirit Temple is akin to other traditional spiritual development systems, such as the Han "Opening of the Golden Blossom" or the inner working of Spiritual Alchemy.

From *Haiku for Godlings* - <http://www.lifespirt.org/haiku99.htm>

The novella, short story collection and mental exercises happen on Earth ("Old Terra") and on the world of **ZOMTAT (Alterra)** which may be understood to be another Earth in the Multiverse, just a few bifurcations away...

As the Poet (ee cummings) said, "There is a hell of a good universe next door..."

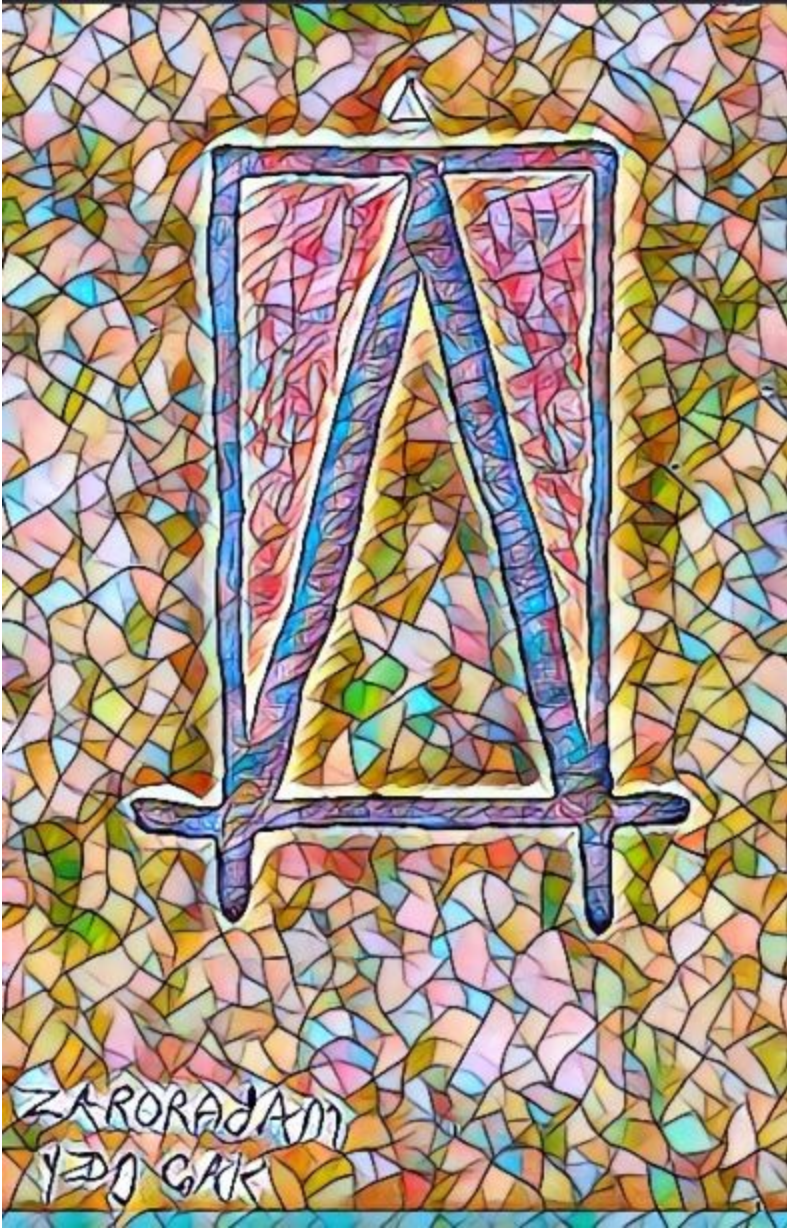

Note: I originally drew these images in 1981 and re-imagined through AI in 2024.
